**Subject:** RE: WY RH FR notice - coordinating in Laurel's absence

Thanks for the updates from your end.

That's great you will do the first pass at the OGC comments (we will cover any legal comments they make, as well as pitch in on any you get stuck on. We just had our call with OGC and they said they will continue to let us know as they complete the sections, which they anticipate completing by next Friday, per the schedule.

On the call OGC asked us if someone gotten back to Janet on her questions and received final confirmation from her on all the decisions? If you can let us know, that would be great.

Also, wanted to let you know that I put together a crosswalk table that lists each BART/RP unit (and FIP issue) and identifies what's in the SIP, what we proposed in the first and second notices, and then the final decision. If anyone wants to see it, let me know.

Thanks for doing your edits in redline/strikeout, that will be helpful.

Finally, I have also been doing some cleanup formatting and such as I go along.

All-

Fyi ....

I just spoke to Laurel. She said that by this past Tuesday she had updated the intro, JB section(s), and the beginning of the MRR section to reflect the final determinations that came out of the Janet briefing. So there is clearly still of a bit of work to be done to make sure that the remaining pieces reflect the final determinations.

In addition, language remains in the intro that continues to characterizes what is now a SIP approval action as a FIP action (e.g., DJ4, N1 and N2). I'll need to clean this up.

And I have been tasked with addressing OGC (ORC too?) comments to date, not to mention that I need to complete my own review.

I plan to start working on the intro section first, addressing OGC comments and the obsolete FIP language. And I plan to use redline/strikeout since so that revisions made at this stage don't go unnoticed.

Hi Monica

Just wanted to check and see how we should be coordinating on the FR notice Laurel out this week. We are wanting to help keep this moving.

OGC has now provided their comments on two sections (Into and General Comments) – and there will more comments coming shortly. We will draft replies for the comments that are legal

in nature, do you want us to let you know as the other sections are reviewed by OGC so you can decide how to address them at your end?

Thanks,

Hi Gail

Have you started covering for Laurel, is someone else covering this week?

Aaron and Laurel

Good news...

First set of comments from OGC are in. You want to look them over and see what you all want to address and what you want Steve and I to do, not seeing any that are solely legal.

Thanks,
